KASHIF HUSSAIN

AI/ML Engineering Intern | Python | NLP | ML Applications

Hyderabad, India | kashifhussaintech77@gmail.com | +91 81434 03603

github.com/kashifhussaintech | linkedin.com/in/kashif-hussain-techzie

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering (AI & ML) undergraduate with hands-on Python, NLP classification, scikit-learn, Flask APIs, and full-stack project experience. Currently interning remotely at Infotact Solutions. Seeking AI/ML engineering internships focused on model integration, evaluation, and practical software delivery.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript | Machine Learning: scikit-learn, Logistic Regression, NLP, TF-IDF, model inference

Data & APIs: Pandas, NumPy, Flask, FastAPI, REST APIs | Development: Git, GitHub, Playwright, React, SQLite

EXPERIENCE

Infotact Solutions — Data Associate L1 Intern | *Remote | Oct 2026–Present | Data Science & Machine Learning*

- Developing OmniSight with Python and Playwright to automate browser interactions and test UI workflows.
- Connecting a React dashboard with a Python/FastAPI backend and maintaining progress through project reviews.

PROJECTS

Fake News Detection — NLP Classification Application | *Python, scikit-learn, TF-IDF, Logistic Regression, Flask*

- Built a text classification workflow using preprocessing, TF-IDF vectorization, and logistic regression.
- Connected model predictions to a Flask interface/API for text submission and inference.

OmniSight — UI Self-Healing & Browser Automation Platform | *Python, Playwright, FastAPI, React | In development*

- Developing automated browser interactions and UI tests using Python and Playwright, with a React dashboard connected to a FastAPI backend.
- Investigating resilient locator recovery and visual UI checks; AI-assisted repair remains under development.

GeneNet — Bioinformatics Information Explorer | *React, JavaScript, SQLite, Flask, REST APIs | Collaborative*

- Developed React interfaces to search and display gene/protein information retrieved through biological APIs.
- Implemented SQLite API-response caching with JSON storage, parameterized SQL, and timestamp-based expiration.

WIS AI — Autonomous AI Agent Workspace | *Python, FastAPI, React, Ollama, Playwright, SQLite | Early development*

- Designing a local-first agent workspace; approval-gated automation and persistent memory are planned features.

EDUCATION

CMR College of Engineering & Technology, Hyderabad | *B.Tech, CSE (AI & ML) | 2023–2027 | CGPA 8.4/10*

HACKATHONS & INNOVATION

3SVK National Cloud Innovation Challenge — Top 200, Phase 2 Idea Submission; Season 2 participant (3,400+ participants).

Cognizant Technoverse 2026 | HackWithHyderabad 3.0 (8-hour) | CODESTORM 2026 (36-hour) — Participant.

TRAINING & CERTIFICATIONS

ServiceNow Developer Program (CSA/CAD/CIS-Discovery coursework) | Google Cloud Career Launchpad — Data Analytics (2026)

IBM Data Analysis Using Python (2025) | Cisco Data Analytics Essentials (2025)
